Caring for animals: healthy communities

On 2/3 March 2010 members of the international and local veterinary communities were hosted in Cape Town by SAVetCon as they launched the 30<sup>th</sup> World Veterinary Congress to be held from 10 – 14 October 2011.

The members of the World Veterinary Association were treated to spectacular views of Table Mountain along with a truly South African Dinner at Moyo's in Blouberg Strand. Our international guests experienced a truly wonderful South African evening as they had their faces painted and were treated to the sounds of an African Acapulco quartet.

The official launch was held on 3 March at the Cape Town International Convention Centre. Over 60 members of the Veterinary Industry attended the launch and were greeted to the traditional sounds of Cape Minstrels; we were also fortunate to have "Kevin" a hand reared baby Burchell's zebra present, Kevin stole the show as he nuzzled his way into everybody's hearts. Dr Melvyn Greenberg opened the preceding before we were then given a brief tour of the CTIC. The event was a huge success and we secured the sponsorship of the OIE.

The 30th World Congress is an amazing achievement for the South African Veterinary Community and as we prepare to welcome delegates from all over the world we can rest assured that the congress will be as successful and well organised as the launch.

Thanks must be given to Cape Town Routes Unlimited for sponsoring the evening at Moyo's, to Kate and Annelie for arranging that Kevin could attend and to Petrie Vogel of SAVETCON for yet another prestigious well run event.
